

LABEL PRINTING module

The Label printing option enhances your L-BOSS system by providing clear price information for your shelves or for individual products.

The system uses the same price information as the L-POS terminals and eliminates pricing errors.

This improves customer confidence and the profitability of your business.

LOGIVISION

210 Laurier, Beloeil, Quebec, Canada J3G 4G7
Tel : 450. 464.2131 Fax : 450. 464.5673
